

Beauty attracts. Beauty distracts. Then again, beauty is also looked upon as something that ages with time, a temporary glory. But not when it comes to Alstone Classic. This product is a beauty that's meant to last. For a long, long time.

Available in a wide range of alluring colours, realistic shades, panel thickness and lengths, Alstone Classic is also the company's highest and oldest selling brand. Made using high-quality PVDF coating coupled with advanced technologies and strict quality control measures, these panels boast of having superior stain resistance quality. Making it an ideal choice for façade and exteriors.

Not only that, Alstone Classic allows customization of colour and size on special requests. That too at prices that are competitive and quality that exudes international standard.

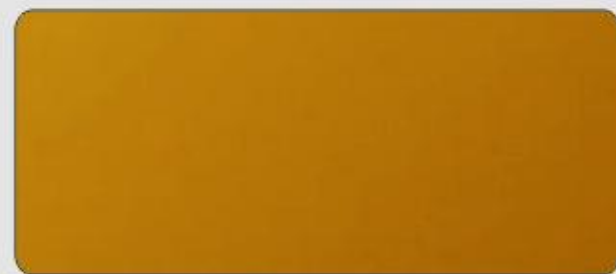

Having earned consumers' trust and respect for Alstone Classic for several years, Alstone cements this bond further with a 15-year guarantee.

So, whether you are a budding contractor, a top-notch builder, a creative architect or an imaginative fabricator, Alstone Classic is your trusted partner, when it comes to building exteriors and façades.
