ALSTONE[®] **Interio**

Alstone Interio is committed to delivering advanced, high-performance panel solutions for the bus body building industry. Backed by over two decades of manufacturing excellence, Alstone Interio offers innovative interior and exterior panel solutions for buses, coaches, electric buses and commercial vehicles, combining durability, aesthetics, safety and functionality to meet evolving industry requirements.

Alstone has been a pioneer in the cladding industry for over two decades, offering a comprehensive portfolio of advanced façade solutions, including Fire Retardant Composite Panels (FRCP), Metal-based High-Pressure Laminates (HPL), Aluminium Honeycomb Panels, Metal Louvers and Zinc Composite Panels (ZCP) in association with VMZINC, France.

The company operates two state-of-the-art manufacturing facilities — one in Dehradun for Aluminium Composite Panels and another in Kotputli for Alstone ALCOMB Honeycomb Panels and other advanced materials. Both facilities are equipped with advanced in-house coating lines, ensuring superior quality, product consistency and timely delivery across India and international markets.

WHY ALSTONE INTERIO?

Committed to highest
standards of safety.

A2

NON COMBUSTIBLE

Alstone A2 is a superior, fire-safe metal composite panel, rated at the fire safety grade of A2. The environment -friendly panel comprises of a non-combustible core (with 90%+ minerals) for the safety of your buildings.

FR

FIRE RETARDANT

Alstone FR is composed of a fire-retardant core sandwiched between two skins of aluminium. The core consists of minimum 70% of non-combustible materials.
